*** * * PRESS STATEMENT * * ***

(Washington) The following statement was released today by ITTA - The Voice of America's Broadband Providers and may be attributed to Genny Morelli, President of ITTA:

"ITTA commends Congressman Steve Scalise (R-LA) for introducing the "Next Generation Television Marketplace Act." Introduction of Rep. Scalise's bill is an important first step in the long overdue process of updating the outdated regulatory framework that governs today's video marketplace."

"ITTA encourages the leadership of the House Energy and Commerce Committee to begin holding hearings on the status of the video marketplace. ITTA urges the Committee to focus specifically on how access to content is a key economic driver in increasing broadband deployment to rural America."

#

ITTA represents communications companies that provide a broad range of high quality wireline and wireless broadband, Internet, voice, and video services to residential and business customers in predominately rural areas across 45 states. For more information, please visit www.itta.us.
